

IDC Retail Insights: Asia/Pacific Retail Industry Intelligence

IDC Retail Insights: Asia/Pacific Retail Industry Intelligence provides technology vendors with an Asia/Pacific retail market perspective, looking at industry subsegments, core processes, and technology categories. This service also provides actionable information to Asia/Pacific marketers, sales leaders and professionals, product managers, market intelligence, and channels managers to accelerate and simplify their jobs, sharing detailed data on industry trends, buying behavior, industry personas, and market sizing.

APPROACH

This advisory service provides an Asian/Pacific view on the retail industry and its subsegments, providing technology suppliers with actionable information on current and future technology purchasing behavior through IDC's proprietary data and analysis.

The service enables subscribers to assess Asia/Pacific market opportunities accurately and better understand their potential prospects by analyzing ICT buyers, both IT and line of business. Research from the service will provide insights into their varying priorities, considering process improvement drivers and their linkage to technology while offering useful guidance to build sales messages and go-to-market initiatives for digital technology providers.

TOPICS ADDRESSED

Throughout the year, this service will address tech suppliers' needs in the Asia/Pacific region, including:

- Evaluating the retail technology market opportunity in the Asia/Pacific region
 - Understanding retail sector buyers and their priorities in the Asia/Pacific region
 - Preparing a focused go-to-market approach for the Asia/Pacific region
 - Refining regionally relevant sales messages
-
